Accompanying person on the ward

Up to the age of 7 years we provide a bed for an accompanying person. This is important for the healing process and the emotional security of the child.

If the child is older than 7 years a bed for an accompanying person can only be offered depending on availability (bed capacity and number of patients).

Although a bed is not available for an accompanying person, parents can stay in the room with their child all over the day and during the night (resting on a chair).

For overnight stays in a hotel, you can find further information about accommodation possibilities on [Downloads | Ordensklinikum Linz](#) (>> Unterkunftsmöglichkeiten) or on [Willkommen in Linz! » Linz Tourismus](#).
